

# THE ARCTIC - SVALBARD ADVENTURE | MS STOCKHOLM

## INTRODUCTION

On board the comfortable expedition ship M/S Stockholm, embark on an amazing Svalbard adventure!

In May and June, the midnight sun begins to reign supreme, bird colonies are thriving with life, and the majestic mountain ranges are gorgeously snow-capped. While the ice still surrounds the islands and slowly loosen its grip on many areas locked away, we can see the ever changing ice formations. Spring has already arrived, and summer is almost here. As we travel through the beautiful Arctic wilderness of Svalbard, we cruise over shimmering glaciers and pause on shore to take in the breathtaking scenery. We also search for well-known animals like seals, walruses, and polar bears.

## ITINERARY

DAY 1: Longyearbyen, Svalbard

We arrive in Longyearbyen and transfer to our hotel.

## THE ARCTIC - SVALBARD ADVENTURE | MS STOCKHOLM

### DAY 2: Expedition cruising - Days 2 to 8

Explore Longyearbyen on your own before meeting up your fellow travellers and guides for lunch. In the afternoon we embark the small expedition ship M/S Stockholm and sail out through Isfjorden. We are now in a part of the world where we are totally dependent on the ice and weather conditions. Our exact itinerary depends on these factors and on the wildlife we encounter. Our ambition is to head out on Zodiac cruises every day and to go ashore when the opportunity arises. Here are some examples of places we may visit: Prins Karls Forland This narrow strip of land is covered by a magnificent and snow-covered mountain chain. The island is also home to many seabirds and harbour seals. Virgohamna, Danskøya Two of the most courageous attempts to reach the North Pole started on the island of Danskøya. Swedish explorer Andrée made an attempt with a hydrogen balloon and American journalist Wellman started with an airship. There are still interesting remnants from these expeditions left on this site. Fantastic fjords Svalbard offers the visitor countless spectacular fjords. During our journey we will explore a few of them such as: Liefdefjorden, meaning "The fjord of love", is lined with snow-covered mountain peaks and here we hope to cruise along the face of the spectacular Monaco Glacier. Many common eiders and pinkfooted geese nest in the area and if lucky we could see the rare king eider. In Krossfjorden we revel in the beautifully sculptured front of the 14th of July Glacier to the raucous greeting of the large number of kittiwakes and Brünnich's guillemots nesting on the nearby cliffs. Raudfjorden is an area of immense natural beauty - dominated by beautiful glaciers. It is also a favourite spot for seals and the bird cliffs are bursting with activity. The scientific village of Ny-Ålesund is situated in Kongsfjorden. It was from here that Amundsen and Nobile started their heroic expeditions to the North Pole. North of Spitsbergen North of Spitsbergen we might meet the edge of the pack ice. Not many ships venture here and we can marvel at the silence and grandeur of this icy landscape. We keep a lookout for the iconic wildlife.

DAY 9: Longyearbyen

Early morning we disembark our expedition ship and begin our journey back home. Please note: All itineraries are for guidance only. Our exact route will depend on the ice, weather conditions, wildlife and government regulations. The places mentioned are just examples of some of the many sites Svalbard has to offer. We always strive to maximise your experience. Please remember that flexibility is the key to a successful expedition!
